Swedish ministry inquiry on water activities

← 2105 Hydropower plants in Sweden

Stefan Berggren
Division for Natural Environment

A ministerial inquiry on water activities was established in April 2012

The inquiry delivered its final report in June 2014.

Henrik Löv, special investigator, delivers the inquiry's final report to Lena Ek, Minister for the Environment

Ongoing consultation

The final report of the inquiry has been sent out for consultation to a broad range of parties.

The responses to the consultation will be taken into serious account in the upcoming process.

The final day for answering the consultation is 31:th October 2014.

Thank you for your kind attention!

- Stefan Berggren
