

2016 WORLD WATER WEEK

# Water for Sustainable Growth

Call for Registration

Key collaborating partners

# Roll up your sleeves, and come to Stockholm!

Photo: Thomas Henriksson

Studying the abstracts that are submitted to SIWI for World Water Week events is a quick way to see where the water discussion is headed. It offers very interesting reading. The clear winner this year is implementation of the 17 Sustainable Development Goals, with a focus on indicators and monitoring.

From SIWI's side, we will dedicate part of this year's World Water Week to taking stock of water in the Agenda 2030 as well as in the Paris climate agreement. Although we are still early in the implementation process, we hope to establish a platform from where we can follow water in the global goals, inspire delegates to take action, and ensure that water is part of the solutions moving forward. We are bringing together some of the key actors within these processes, and we look forward to some high-quality brainstorming.

Financing for development is another topic that grows each year, if we use World Water Week abstracts as a measuring tool. Since proper financing is a prerequisite for any sort of implementation of the global goals, it is a subject we hope to see discussed in-depth during the Week.

Other topics receiving a lot of attention are transboundary aquifers, natural infrastructure, as well as nutrition, irrigation and drought.

Our theme for the Week, Water for Sustainable Growth, will be a common denominator for all our talks.

As you can see, we are planning for an exciting World Water Week this year! In these pages, you can browse the programme and start planning your Week.

Between 28 August and 2 September, Stockholm is the place to be. Register now, and welcome!

Torgny Holmgren  
Executive Director  
Stockholm International Water Institute

## World Water Week seminars

The World Water Week offers eight scientific seminars with content in direct connection with the thematic scope of the Week. The seminar programmes are put together by the Scientific Programme Committee and Co-convenors, using abstracts submitted for the Week and invited keynote speakers. For 2016 the eight themes will be:

- Water as a driver for sustainable growth
- Water security in a changing world: Coping with threats
- Water and job opportunities: A critical nexus for growth
- Ecosystem degradation and livelihoods: moving from vicious to virtuous cycles
- Water for sustainable and inclusive cities: How to induce change?
- Water stewardship: A driver for business growth
- Financing water infrastructure for sustainable growth
- Good water governance for inclusive growth and poverty reduction

## SIWI Sofa

In 2016, World Water Week will again feature the SIWI Sofa. Take the opportunity to create your own SIWI Sofa segment – in film or as a podcast.

The Sofa is a cross between a speakers' corner and an interview studio. Experts, decision-makers and leaders will be interviewed live on a variety of water-related issues. Sofa segments will be promoted in the programme, recorded (video or podcast) and shared through various online channels during and after the Week.

# Registration information

**Registration** | Registration to the World Water Week is required for all participants - including speakers (and invited participants). The online registration is available at [www.worldwaterweek.org](http://www.worldwaterweek.org)

Please note that registration for field visits and social events, accommodation and travel bookings are available upon registration. Places are allocated based on "first come – first served". Payment is required upon registration. Registration is open to adults only.

For more information about accommodation and social events visit [www.worldwaterweek.org](http://www.worldwaterweek.org).

**Visa information** | Participants requiring a visa for entry to Sweden are strongly advised to make their application in their home country at least two months before the intended date of travel. Please read more about the visa requirements at [www.worldwaterweek.org](http://www.worldwaterweek.org)

**Venue** | In 2016, the Week will again take place in the heart of Stockholm at the City Conference Centre, extending between both Norra Latin and Folkets Hus. Main on-site registration will be inside the main entrance of Folkets Hus. Delegates can collect conference badges and programme after 3pm, Saturday 27 August.

**City Conference Centre**  
Drottninggatan 71b and Barnhusgatan 12-14,  
Stockholm, Sweden  
Phone: +46 8-506 16 400  
[www.stoccc.se](http://www.stoccc.se)

## Fees

### Full Week Registration

15 Apr – 30 Jun:	SEK 7000 (~EUR 750)
1 Jul – 27 Aug:	SEK 8500 (~EUR 900)
28 Aug – 2 Sep:	SEK 9500 (~EUR 1015)
Student Fee:	SEK 1900 (~EUR 200)

### Day Card Registration

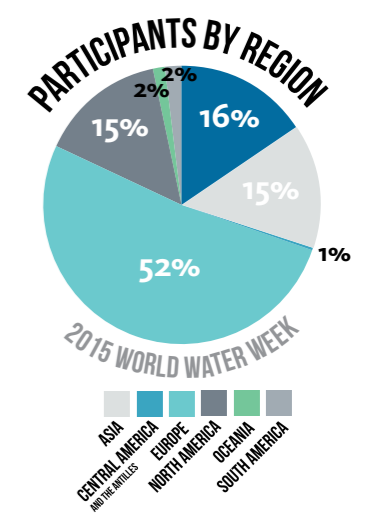

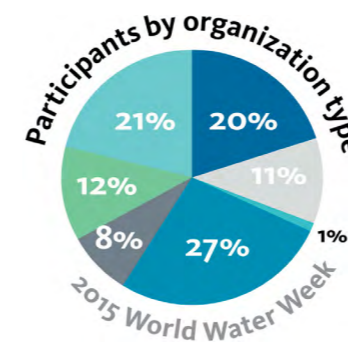

15 Apr – 30 Jun:	SEK 1900 (~EUR 200)
1 Jul – 27 Aug:	SEK 2500 (~EUR 260)
28 Aug – 2 Sep:	SEK 2900 (~EUR 310)
Student Fee:	SEK 600 (~EUR 60)

\*Day cardholders - available only for day of registration

The full week registration entitles you to:

- Printed programme
- Water bottle
- Lunch and coffee/tea
- Mayor's Welcome Reception (pre-registration required)
- Mingle & Dance (pre-registration required)
- Bag and conference materials

## Statistics from 2015

# Sunday, 28 August

	Event title	Convenors
09:00-10:30	Build and run to last: Advances in rural water services	IRC, Rural Water Supply Network and Water Global Practice of the World Bank Group
	City-wide sanitation services: Recent thinking and experiences	GIZ, Sustainable Sanitation Alliance, UNDP-SIWI Water Governance Facility, Water Global Practice of the World Bank Group and WaterAid
	Sigmund Freud, the missing link in water and sanitation?	BORDA, cewas, seecon, Stockholm Environment Institute, Swiss Agency for Development and Cooperation, Swiss Water Partnership and WASTE and World Toilet Organisation
	The business of sustainable water & sanitation for the poor	Antenna Technologies Foundation and Toilet Board Coalition
	The role of multi-sector responses in the context of adaptation	National Association of Water and Sanitation Utilities of Mexico and National Water Commission, Mexico

11:00-12:30	Cause marketing campaigns for sustainable growth: Water.org-Stella Artois Partnership	AB InBev and Water.org
	Equitable access to water and sanitation: Sustainable growth for all	GIZ, Mandate of the Special Rapporteur on the Human Right to Safe Drinking Water and Sanitation, Ministry of Social Affairs and Health of France, Programme for Finland's Water Sector Support to Kyrgyzstan and Tajikistan (FinWaterWEI II), Sustainable Sanitation Alliance, Swiss Agency for Development and Cooperation, United Nations Economic Commission for Europe, WaterLex and World Health Organization
	Making sound energy choices today to achieve water security tomorrow	China Water Risk, Global Water Partnership, and Institute for Advanced Sustainability Studies
	Operationalizing the water-energy-food nexus	GIZ, Global Environment Facility, GEF-IW:Learn, International Institute for Applied Systems Analysis, International Union for Conservation of Nature, International Water Association, United States Department of State and World Resources Institute
	South Asia climate challenge: Managing groundwater resources for sustainable growth	Alliance for Global Water Adaptation, Global Water Partnership, LEAD and SIWI
	<b>SEMINAR</b> Water and job opportunities: Critical nexus for growth	2030 Water Resources Group, International Labour Organization, International Water Association and SIWI
<b>SEMINAR</b> Water security in a changing world: Coping with threats	Alliance for Global Water Adaptation, Rockefeller Foundation, UNESCO International Hydrological Programme and SIWI	

14:00-15:30	Basins to boreholes: Monitoring for water security	International Union for Conservation of Nature, Partnerships in Practice, Overseas Development Institute, University of Technology Sydney and WaterAid
	Forests, water and sustainable growth of cities	Center for International Forestry, Focali, FAO, ForestTrends, International Centre for Integrated Mountain Development, SSC Forestry, SIWI, Swedish Forestry Agency and Swedish University of Agricultural Sciences
	Malin Falkenmark symposium: A triple green future for humanity	Stockholm Environment Institute, SIWI and Stockholm Resilience Centre
	Political drivers for sustained change in water service delivery	IRC, Osprey Foundation, Water For People and WaterAid
	SWA: Contributing to the follow-up and review of SDG 6	Sanitation and Water for All
	The surprising benefits of transboundary cooperation	Green Cross International, Government of Estonia, United Nations Economic Commission for Europe, University of Dundee and WWF
	Using wastewater efficiently to protect the environment and combat poverty	Global Environment Facility, Global Wastewater Initiative, GPA, United Nations Development Programme, United Nations Environment Programme, United Nations Office for Project Services and United Nations University - Institute for Integrated Management of Material Fluxes and of Resources
	<b>SEMINAR</b> Water and job opportunities: Critical nexus for growth	2030 Water Resources Group, International Labour Organization, International Water Association and SIWI
	<b>SEMINAR</b> Water security in a changing world: Coping with threats	Alliance for Global Water Adaptation, Rockefeller Foundation, UNESCO International Hydrological Programme and SIWI

16:00-17:30	Actions speak louder than words: Implementation roadmaps for catalysing change	World Water Council
	Boosting the economy with water - and keeping it clean	Academy of Finland, Finnish Water Forum, Ministry for Foreign Affairs, Finland, Ministry of Agriculture and Forestry, Finland ; FWF, MFA, Geological Survey of Finland, Finnish Environment Institute, FCG Finnish Consulting Group, Niras Finland, Solar Water Solutions, Vesiotec, University of Turku
	Drivers for achieving the SDGs: Financing and innovation	Korea Water Resources Corporation and Organisation for Economic Cooperation and Development
	Enabling investment in irrigation in sub-Saharan Africa	International Development Enterprises, International Food Policy Research Institute, International Water Management Institute and United States Agency for International Development
	Financing sustainable growth in the Jordan Valley (Jordan, Palestine, Israel)	EcoPeace Middle East and SIWI
	Results-based financing approaches for sanitation provision in urbanizing areas	Global Partnership on Output-Based Aid and The World Bank Group
	<b>SEMINAR</b> Water and job opportunities: Critical nexus for growth	2030 Water Resources Group, International Labour Organization, International Water Association and SIWI
	<b>SEMINAR</b> Water security in a changing world: Coping with threats	Alliance for Global Water Adaptation, Rockefeller Foundation, UNESCO International Hydrological Programme and SIWI
	WEF nexus platform: Achieving the water, energy and food SDGs	Asian Development Bank, Deloitte Consulting LLP, Global Water Partnership, International Food Policy Research Institute, International Union for Conservation of Nature, International Water Management Institute, OCP Policy Center, Stockholm Environment Institute, Texas A&M University, The World Bank Group and World Wildlife Federation

## Young professionals' mingle

Are you under 35? Do you like to network? Start off the Week with a drink at the Young Professionals' Mingle and take the opportunity to meet other young professionals in an informal setting!

Venue: Restaurant Broken, Kungsgatan 18, Stockholm

Mingle

## Opening plenary

The official Opening Ceremony will address this year's theme – Water for Sustainable Growth. It will feature a number of high-level speakers who will set the scene for discussions during the Week and inspire delegates to reflect on what the theme entails - as a concept, and in practice.

**Margot Wallström**  
Minister for Foreign Affairs, Sweden

**Angel Gurría**  
Secretary-General, OECD

**Joel Morgan**  
Minister for Foreign Affairs and Transport, Republic of Seychelles (tbc)

**Naina Lal Kidwai**  
Former Group General Manager and Country Head, HSBC

**Karin Wanngård**  
Mayor of Stockholm

**Claire Reed**  
Chief Impact Officer and Founder, Reel Gardening

**Professor Joan Rose**  
2016 Stockholm Water Prize Laureate

**Torgny Holmgren**  
Executive Director, SIWI

**Nkosozana Dlamini-Zuma**  
Chair of the African Union (tbc)

**Karin Lexén**  
Director, World Water Week

09:30-12:00

## The City of Stockholm welcome reception

The President of the Stockholm City Council, Ms Eva-Louise Erlandsson Slorach, is pleased to hold an opening reception at the Stockholm City Hall for all World Water Week participants. Come and enjoy a Swedish themed buffet with fellow delegates in Stockholm's beautiful City Hall, with its imposing facades and interior in National Romantic style. The event is hosted by the City of Stockholm.

The event is included in the registration fee but pre-registration is required.

Mingle

19:30-21:30

	Event title	Convenors
14:00-15:30	Building resilience, realising opportunity, delivering water security through investor intervention	CDP
	Driving collaborative change in the textile and leather industry	Levi Strauss & Co, SIWI, Sweden Textile Water Initiative and Swedish International Development Cooperation Agency
	High-level panel on 2030 global water architecture	Federal Ministry for Economic Cooperation and Development, Germany, Federal Ministry for the Environment, Nature Conservation, Building and Nuclear, Germany, Ministry of Foreign Affairs and Trade Hungary and Federal Department of Foreign Affairs Switzerland
	Realizing SDG's through sanctions, rewards, and learning from experiences	Forum Syd, International IDEA and UNDP-SIWI Water Governance Facility
	Secure water, empowered citizens: What can social accountability achieve?	Kenya Water and Sanitation CSOs Network, The World Bank Global Partnership for Social Accountability, U4 Anti-Corruption Resource Centre, Water Integrity Network, Water Witness International and WaterAid
	Security actors in the governance of scarce water resources	Stockholm International Peace Research Institute
	WASHoholic anonymous: Confessions of failure and how to reform	Aguaconsult, GIZ, Directorate-General for International Cooperation, The Netherlands, German Toilet Organization, IRC, Rural Water Supply Network, Sustainable Sanitation Alliance, Welthungerhilfe and Viva con Agua
	Water and jobs: The UN World Water Development Report	International Labour Organization, UN World Water Assessment Programme and UN-Water
	<b>SEMINAR</b> Water as a driver for sustainable growth	Global Water Partnership, Organisation for Economic Cooperation and Development, SIWI and The World Bank Group
	Water solutions for resilience and sustainable growth of cities	Arup, IWA and SIWI

16:00-17:30	Antimicrobial resistance: Linkages between humans, livestock and water in periurban areas	Gothenburg University, Public Health Foundation India, Swedish Federation of Farmers -Committe on Global Food Security High Level Panel, Swedish International Agricultural Network Initiative, Swedish Ministry for Innovation and Enterprise and Swedish University of Agricultural Sciences
	How to engage local water organisations in an integrity process?	Bangladesh Water Integrity Network, Caritas, Kenya Water and Sanitation CSOs Network, Swiss Agency for Development and Cooperation, Swiss Water Partnership and Water Integrity Network
	Migration and water management: Lessons for policy and practice	International Water Management Institute
	Nile Basin: Land and energy investments and changing hydropolitical landscapes	International Water Management Institute, Nordic Africa Institute, SLU Global and SIWI
	Opportunities of market-based programming to address humanitarian WASH needs	GIZ, Global WASH Cluster, European Commission Directorate General for Humanitarian Aid and Civil Protection, Federal Department of Foreign Affairs, Germany, Federal Department of Foreign Affairs, Switzerland, German WASH Network, Oxfam-Great Britain and Sustainable Sanitation Alliance
	The missing link: Recognising women's invisible water work	Aquafed, International Labour Organization, UNDP-SIWI Water Governance Facility, Women for Water Partnership
	Water and disasters in 2030 agenda for sustainable development	Office of the United Nations Secretary-General's Special Envoy for Disaster Risk Reduction and Water
	Water and faiths: Faith based organizations contributing to the SDGs	Global Water Partnership, Stockholm International Water Institute and The Church of Sweden
	Water and mining: Economic growth or depletion of natural resources	Federal Institute for Geosciences and Natural Resources, Germany
	<b>SEMINAR</b> Water as a driver for sustainable growth	Global Water Partnership, Organisation for Economic Cooperation and Development, SIWI and The World Bank Group

# Tuesday, 30 August

09:00-12:00

## The R&D-facility Hammarby Sjöstadswerk – Innovative water treatment

**Field visit.** Convenor: Hammarby Sjöstadswerk

Tickets can be purchased when registering to the World Water Week. Cost: 250 SEK. Transportation and refreshments included.

Photo: Lars-Gunnar Lindfors

Event title	Convenors
<b>SEMINAR</b> Ecosystem degradation and livelihoods: Moving from vicious to virtuous cycles	International Centre for Integrated Mountain Development, SIWI, Swedish Agency for Marine and Water Management, Water Research Commission and We Effect
<b>SEMINAR</b> Financing water infrastructure for sustainable growth	2030 Water Resources Group, Ministry of Infrastructure and the Environment The Netherlands, Organisation for Economic Cooperation and Development, SIWI and World Water Council
Governance of groundwater resources in transboundary aquifers	Global Environment Facility, Ministry of Water and Sanitation South Africa, Ministry of Environment Uruguay, UNESCO International Hydrological Programme and Water Research Commission South Africa
How to measure and value social impact?	International Union for Conservation of Nature, Natura and Firmenich, Nestlé, The Gold Standard Foundation, Valuing Nature and World Business Council for Sustainable Development
Integrating climate governance and water diplomacy	adelphi, GIZ and Federal Department of Foreign Affairs, Germany
MENA Focus: Seeking answers to the water crisis in the MENA	Federal Institute for Geosciences and Natural Resources, Germany and German Water Partnership
Securing Asia's water future: The Asian Water Development Outlook 2016	Asian Development Bank
Slipping through our fingers: The importance of water resources assessment	International Atomic Energy Agency
Upscaling the WASH-nutrition nexus for sustainable (body) growth	Action contre la faim, End Water Poverty, GIZ, Federal Ministry for Economic Cooperation and Development, Germany, German WASH Network, Sanitation and Water for All, Scaling Up Nutrition Movement, Sustainable Sanitation Alliance, WaterAid and World Health Organization
Looking to 2030: Young Professionals call to action!	Arup and SIWI

Attracting, engaging and developing the capacity of water professionals	Centre for Affordable Water and Sanitation Technology, Swedish Water House, UNESCO – Institute for Water Education, Water Youth Network, Water, Engineering and Development Centre of Loughborough University and World Youth Parliament for Water
Catalyzing natural capital financing for water security, management and infrastructure	International Union for Conservation of Nature, Rare and The Nature Conservancy
<b>SEMINAR</b> Ecosystem degradation and livelihoods: Moving from vicious to virtuous cycles	International Centre for Integrated Mountain Development, SIWI, Swedish Agency for Marine and Water Management, Water Research Commission and We Effect
<b>SEMINAR</b> Financing water infrastructure for sustainable growth	2030 Water Resources Group, Ministry of Infrastructure and the Environment The Netherlands, Organisation for Economic Cooperation and Development, SIWI and World Water Council
Gendered WASH needs: Programming for the home, school, and workplace	CARE International, London School of Hygiene and Tropical Medicine / SHARE Research Consortium, Plan International, SNV, United Nations Children's Fund, University of Oklahoma and WaterAid
Eye on Asia: Growing green cities: Technologies and their Benefits	Asian Development Bank
MENA Focus: Enhancing water governance and integrity for sustainable growth	Global Water Partnership-Mediterranean and UNDP-SIWI Water Governance Facility
Public private platforms for sustainable growth and development	2030 Water Resources Group
Why waste water? Gearing up for World Water Day 2017	UN-Water

8 | Call for registration

Bridging ICTs and water security: Eye on earth initiative	Eye On Earth ISEPEI Project
Can WASH projects deliver sustainable growth and employment?	International Federation of Red Cross and Red Crescent Societies
<b>SEMINAR</b> Ecosystem degradation and livelihoods: moving from vicious to virtuous cycles	International Centre for Integrated Mountain Development, SIWI, Swedish Agency for Marine and Water Management, Water Research Commission and We Effect
Eye on LAC: Water and sanitation as a business: Constraints-opportunities	Inter-American Development Bank, IRC, One Drop, Water For People and WaterAid
<b>SEMINAR</b> Financing water infrastructure for sustainable growth	2030 Water Resources Group, Ministry of Infrastructure and the Environment The Netherlands, Organisation for Economic Cooperation and Development, SIWI and World Water Council
Africa focus: Investing in infrastructure to shape sustainable growth in Africa	Infrastructure Consortium for Africa, International Union for Conservation of Nature, International Water Association, Nile Basin Initiative, Southern African Development Community, United States Department of State and Volta Basin Authority
Monitoring water and sanitation in the 2030 Agenda	Federal Ministry for Economic Cooperation and Development, Germany, Federal Ministry for the Environment, Nature Conservation, Building and Nuclear, Germany, FAO, Swiss Agency for Development and Cooperation, UN-Water, UNICEF, United Nations Educational, Scientific and Cultural Organization, United Nations Environment Programme, UN-Habitat, World Health Organization and World Meteorological Organization
Past, present and future of rural sanitation programs in India	Government of India, Ministry of Drinking Water and Sanitation, The World Bank Group, United Nations Children's Fund and Water Global Practice of the World Bank Group
Role-playing how water markets improve food security and the environment	Mammoth Trading and Robert B. Daugherty Water for Food Institute at the University of Nebraska
Getting through to You(th)	Arup and SIWI

"Water No Get Enemy!" Drivers of urban water supply improvement	The World Bank Group, Water and Sanitation for the Urban Poor, Water Global Practice of the World Bank Group and Water, Sanitation and Hygiene Institute
Accelerating development by building a prosperous environment for WASH	Grundfos, Procter and Gamble and World Vision
Can there be transboundary water cooperation without international water law?	Australia's National University, King's College London and London Centre of International Law Practice
Climate change and water quality: Connecting the dots	Alliance for Global Water Adaptation, Organisation for Economic Cooperation and Development and UNESCO International Hydrological Programme
Eye on LAC: The Circular Economy of Water: Wastewater Reuse	CAF - Development Bank of Latin America, Inter-American Development Bank and The World Bank Group
Harnessing market mechanisms to build water resilience	Rockefeller Foundation
Retooling finance for resilient solutions: Connecting finance, water and climate	@aqua, Alliance for Global Water Adaptation, CBI, International Union for Conservation of Nature and The World Bank Group
Telling your story to make an impact	CGIAR Research Program on Water, Land and Ecosystems Led by IWMI, KickStart, Redstone and Robert B. Daugherty Water for Food Institute at the University of Nebraska
The key to sustainable growth: mainstreaming climate resilient infrastructure	Adam Smith International, Global Water Partnership, Southern Region Water Administration - Government of Mozambique and SouthSouthNorth
Understanding risks and maximizing natural infrastructure benefits for water security	The Nature Conservancy and World Resources Institute

17:40-21:00

## Stockholm Junior Water Prize ceremony

The royal award ceremony will be held at the Grand Hôtel in the presence of H.R.H. Crown Princess Victoria. A formal dinner with entertainment will be served in the elegant setting of the winter garden.

This event is by invitation but a limited amount of tickets are available for purchase. Price: SEK 1500 per person. Can be booked through the registration form. Dress code: Semi-formal

2016 World Water Week | 9

# Wednesday, 31 August

Event title	Convenors
2016 Stockholm Water Prize symposium: Pollution or prosperity?	Royal Swedish Academy of Science and SIWI
Cracking the water finance puzzle: Crowding in private finance	2030 Water Resources Group, Organisation for Economic Cooperation and Development and The World Bank Group
EU Water Initiative multi-stakeholder forum	European Commission and Stockholm International Water Institute
Eye on LAC: Towards a green infrastructure agenda	Asociación de Entes Reguladores de Agua y Saneamiento de las Américas, FEMSA Foundation, Inter-American Development Bank and The Nature Conservancy
<b>SEMINAR</b> Good water governance for inclusive growth and poverty reduction	International Water Management Institute, Organisation for Economic Cooperation and Development, SIWI, UNDP-SIWI Water Governance Facility and Water Research Commission
Eye on Asia: Hungry Asia: Growing more food with less water	Asian Development Bank
MENA focus: Informing the SDGs through the Arab MDG+ initiative	Arab Countries Water Utilities Association, League of Arab States, Swedish International Development Cooperation Agency and United Nations Economic and Social Commission for Western Asia
Africa focus: Pan Africa monitoring and reporting system: Informing policy, tracking progress	African Ministers' Council On Water, African Union Commission and UNEP-DHI Centre for Water and Environment
<b>SEMINAR</b> Water stewardship: A driver for business growth	Deloitte Consulting LLP, DHI, SIWI, World Business Council for Sustainable Development and World Wide Fund for Nature
Water: Key to adaptation and resilience	Comision Nacional del Agua and World Water Council

2016 Stockholm Water Prize symposium: Pollution or prosperity?	Royal Swedish Academy of Science and SIWI
Beyond the drinking glass: Expanding our understanding of water-nutrition linkages	IFPRI, REACH and ZEF
Eye on Asia: Innovating for a Water Secure Asia	Asian Development Bank
<b>SEMINAR</b> Good water governance for inclusive growth and poverty reduction	International Water Management Institute, Organisation for Economic Cooperation and Development, SIWI, UNDP-SIWI Water Governance Facility and Water Research Commission
MENA Focus: World Café 2016 / water, growth, stability	Regional Environmental Center
Africa focus: Ministerial panel on Ngor Declaration for water security and sanitation	African Ministers' Council On Water, African Union Commission and UNEP-DHI Centre for Water and Environment
Monitoring safely managed drinking-water services in the 2030 Agenda	GIZ, Federal Ministry for Economic Cooperation and Development, Germany, Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Germany, UN-Water and World Health Organization/United Nations Children's Fund Joint Monitoring Programme
Social sustainability: A framework for approaching the water SDGs	Centre for Science and the Environment, Delhi, Water Global Practice of the World Bank Group and WaterAid
Water reserves: Opportunities for scaling up in Latin America	National Water Commission, Mexico and World Wide Fund for Nature
<b>SEMINAR</b> Water stewardship: A driver for business growth	Deloitte Consulting LLP, DHI, SIWI, World Business Council for Sustainable Development and World Wide Fund for Nature

Financing water security for economic growth	European Investment Bank
<b>SEMINAR</b> Good water governance for inclusive growth and poverty reduction	International Water Management Institute, Organisation for Economic Cooperation and Development, SIWI, UNDP-SIWI Water Governance Facility and Water Research Commission
Implementing the water-related SDG: An inter-regional dialogue	African Ministers' Council On Water, Asian Development Bank, CAF - Development Bank of Latin America, Global Water Partnership, Inter-American Development Bank, Spanish Cooperation Agency for International Development and The World Bank Group
Improving water stewardship and livelihoods through citizen observatories	Akvo Foundation, Earthwatch, Stockholm Resilience Centre and UNESCO-IHE - Institute for Water Education/UNESCO-PCCP
Large- versus small-scale irrigation: Framing the level of irrigation investment discourse	The World Bank Group
Opportunities for mainstreaming resource recovery and reuse in developing countries	Bill & Melinda Gates Foundation, Columbia University, International Water Management Institute, Water Environment Federation, Water Environment Research Foundation, Water Global Practice of the World Bank Group and Water Research Commission
Source to Sea: Bridging marine and freshwater SDGs	Action Platform on Source to Sea Management, FAO, SIWI, Swedish Agency for Marine and Water Management, United Nations Development Programme and United Nations Environment Programme - Global Programme of Action for the Protection of the Marine Environment from Land-based Activities
Transboundary aquifers governance and climate change adaptation	GEF-IW:Learn, International Union for Conservation of Nature, Ministry of Environment Uruguay, UN World Water Assessment Programme, UNESCO International Hydrological Programme, United Nations Economic Commission for Europe, United Nations Framework Convention on Climate Change, University of Dundee and University of Strathclyde
<b>SEMINAR</b> Water stewardship: A driver for business growth	Deloitte Consulting LLP, DHI, SIWI, World Business Council for Sustainable Development and World Wide Fund for Nature

Encouraging integration to realize the global water goal	Texas A&M University and World Wide Fund for Nature
Groundwater governance and gender sensitive water assessment in SDG 6	UN World Water Assessment Programme and UNESCO International Hydrological Programme
Maintaining healthy watersheds: Improving governance of ecosystems management for sustainability	Conservation International, International Union for Conservation of Nature, International Water Management Institute, Luc Hoffman Institute - WWF and UNEP-DHI Centre for Water and Environment
Practical solutions for sustainable small eater enterprises in India	Safe Water Network and United States Agency for International Development
Smart enforcement: The key to sustainable urban sanitation	GIZ, PSI - Population Services International, SNV, University of Technology Sydney and Water and Sanitation for the Urban Poor
Sustainable management of the shared Nubian aquifer system	Joint Authority for the Study and Development of the Nubian Sandstone Aquifer System and National Water Research Center, Egypt
Impacts of droughts and floods in cities: Policies and governance	Institute of Water Policy, Lee Kuan Yew School of Public Policy and National University of Singapore
Transboundary aquifers governance and climate change adaptation	GEF-IW:Learn, International Union for Conservation of Nature, Ministry of Environment Uruguay, UN World Water Assessment Programme, UNESCO International Hydrological Programme, United Nations Economic Commission for Europe, United Nations Framework Convention on Climate Change, University of Dundee and University of Strathclyde

16:30-00:00

## Stockholm Water Prize Ceremony and Royal Banquet

The 2016 Stockholm Water Prize, honouring Professor Joan Rose, will be presented by H.M. King Carl XVI Gustaf of Sweden in the Stockholm City Hall. Their Majesties the King and Queen of Sweden will be present at the Royal Award Ceremony and the following Banquet.

This exclusive event is by invitation but a limited amount of tickets are available for purchase. Price: SEK 3750 per person. Can be booked through the registration form. Dress code: Black tie

## Building a resilient future through water

In the early stages of 2030 Agenda and the Paris Agreement implementation, this session will help to set the global scene, inspire delegates to take joint action, and ensure that water is part of the solutions moving forward. It will bring together some of the key actors within these processes, establishing a platform from which to take stock moving ahead.

**Jan Eliasson**  
Deputy Secretary-General of the United Nations

**Nomvula Mokonyane**  
Minister of Water and Sanitation, South Africa (tbc)

**H.E. Ameenah Firdaus Gurib-Fakim**  
President of the Republic of Mauritius (tbc)

**Dr. Catarina de Albuquerque**  
Executive Chair, Sanitation and Water for All

**Isabella Lövin**  
Minister for International Development Cooperation, Sweden

**Jennifer J. Sara**  
Director, World Bank Group

09:30-12:30

Event title	Convenors
#GetTheGrade: Interactive gaming session on basin report cards	University of Maryland Center for Environmental Science and World Wide Fund for Nature
Building a resilient future through water	SIWI
Improving rural livelihoods: Are small dams the answer?	African Development Bank, FAO and The World Bank Group
International water law and water-related investments: Reconciling divergent legal regimes	GIZ, SIWI, UNESCO – Institute for Water Education and United Nations Economic Commission for Europe
Preventing seawater intrusion for sustainable growth in coastal zones	Federal Institute for Geosciences and Natural Resources, Germany and UNESCO International Hydrological Programme
Smart subsidy for sanitation: Experimental and applied evidence of success	Bill & Melinda Gates Foundation, The World Bank Group and Thrive Networks / East Meets West
Turning errors into actions: Continuous Improvements!	Center for Development and Cooperation at the Swiss Federal Institute of Technology in Zurich, HELVETAS Swiss Intercooperation, Improve International, International Development Enterprises, Sandec, Swiss Water Partnership and The Water Institute at University of North Carolina
WASH services in fragile states: Accountability for sustainable service delivery	UNDP-SIWI Water Governance Facility, United Nations Children's Fund and Water Global Practice of the World Bank Group
Wastewater reuse for enhanced food and non-food value chains	Center for Environmental Systems Research at University of Kassel, Deutsches Institut für Entwicklungspolitik, FAO, United Nations Environment Programme and United Nations University - Institute for Integrated Management of Material Fluxes and of Resources
<b>SEMINAR</b> Water for sustainable and inclusive cities: how to induce change?	Global Water Operators' Partnerships Alliance at UN-Habitat, Global Water Partnership, SIWI, The World Bank Group and Water Environment Federation

09:00-10:30

Building a resilient future through water	SIWI
Drought, food security, migration and climate: Policy and conflict implications	German Development Institute, SIWI and United Nations Convention to Combat Desertification
Mountains, glaciers and hydropower in a changing climate	Future Waters Netherlands, International Centre for Integrated Mountain Development, Statkraft, SIWI and University of Arizona
Options for water security: How should we decide?	African Collaborative Centre for Earth System Sciences Kenya, Alliance for Global Water Adaptation, Basque Centre for Climate Change, CGIAR Research Program on Water, Land and Ecosystems Led by IWMI, International Union for Conservation of Nature, International Water Management Institute, Overseas Development Institute, University of Manchester and Water Research Institute Ghana
Private sector partnerships for sustainable groundwater reserves	Earth Security Group and Swiss Agency for Development and Cooperation
Scaling-up WASH action in companies' supply chains: Promoting sustainable growth	United Nations Global Compact CEO Water Mandate, WaterAid and World Business Council for Sustainable Development
Systematic behavior change to ensure usage of WASH infrastructure	Eawag, HELVETAS Swiss Intercooperation, Swiss Agency for Development and Cooperation, Swiss Water Partnership and World Health Organization
Understanding sustainable sanitation as the cornerstone of sustainable development	Sanergy, Stockholm Environment Institute, Swedish International Agriculture Network Initiative, Swedish University of Agricultural Sciences and Water Research Commission
<b>SEMINAR</b> Water for sustainable and inclusive cities: how to induce change?	Global Water Operators' Partnerships Alliance at UN-Habitat, Global Water Partnership, SIWI, The World Bank Group and Water Environment Federation

11:00-12:30

Addressing emerging pollutants to achieve SDGs	Organisation for Economic Cooperation and Development, Swedish International Development Cooperation Agency and UNESCO International Hydrological Programme
Building resilience for water scarcity and drought	Australian Water Partnership and U.S. Water Partnership
HSBC Water Programme: A partnership powering sustainable growth	Earthwatch, HSBC, WaterAid and WWF-UK
Natural infrastructure for water: Achieving sustainable development goals	ForestTrends and Swiss Agency for Development and Cooperation
Risk/2 = Benefitx2 a sugar industry conundrum in Southern Africa	Adam Smith International and Illovo Sugar
UN-Water stakeholder dialogue: Inter-linked implementation of SDG 6	UN-Water
<b>SEMINAR</b> Water for sustainable and inclusive cities: how to induce change?	Global Water Operators' Partnerships Alliance at UN-Habitat, Global Water Partnership, SIWI, The World Bank Group and Water Environment Federation
Water risk in times of globalisation and sustainable development	Swiss Agency for Development and Cooperation, Swiss Water Partnership and World Wide Fund for Nature

14:00-15:30

A vision for water in the oil and gas sector	IPIECA
Building climate resilience in water supply and sanitation	Water Global Practice of the World Bank Group
Energy/resource efficiency and carbon reductions in water and sanitation services	Comisión Nacional del Agua, Department of Water Affairs, Botswana, GIZ, International Water Association, SIWI and Water Research Commission
Leveraging domestic resources to remove financial bottleneck in WASH	Ministry of Foreign Affairs, The Netherlands and United Nations Children's Fund

### Mingle and Dance

Welcome to an informal, relaxed but important gathering for World Water Week participants. The Mingle and Dance is open for all registered participants and arranged at the magnificent theatre in the heart of Stockholm – Vasateatern. Light dinner, entertainment, dance floor, bar and good atmosphere will be provided. The event is included in the registration fee but pre-registration is required.

## Closing plenary

The Closing plenary will provide delegates with an overview of the highlights from the 200 sessions taking place during World Water Week. High-level speakers will look ahead and identify the stepping stones towards the 2017 World Water Week. World Water Week Rapporteurs,

representatives from our Key Collaborating Partners, the Chair of World Water Week's Scientific Programme Committee and a representative of the interregional dialogues will all share key findings and recommendations from the different events and gatherings during the week.

**Kristina Persson**  
Minister for Strategic Development and Nordic Cooperation (tbc)

**Anders Bertell**  
Executive Director, 2030 Water Resources Group (tbc)

**Dr. Abdeladim El Hafi**  
High Commissioner for the COP22 High Commissioner for Water, Forestry and Fight Against Desertification, Morocco

**Anthony Cox**  
Deputy Director, Environment Directorate, OECD

**Dhesigen Naidoo**  
CEO, Water Research Commission (tbc)

**Dr. Torkil Jønych Clausen**  
Chair, Scientific Programme Committee of the World Water Week

## Food production for a healthy planet

How do we cooperate towards a sustainable food chain from farmer to consumer? Join us in the field to find out! Learn more both in theory and practice about an innovative business model which rewards agricultural suppliers who take measures to promote biodiversity, reduce climate impact and combat eutrophication.

*Tickets can be purchased when registering to the World Water Week. Cost: 450 SEK. Transportation and refreshments included. Please note that we will be outdoors in the field! Rubber boots are recommended!*

Field visit

13:00-18:00

## Closing the loop on biological waste - testing innovative methods

This visit will look into possible solutions to the world's growing waste problems. To close the loop and take advantage of the nutrients in the waste, we look at a fly larvae-composting system where waste is converted into proteins. We also visit a pilot plant for testing different techniques for anaerobic digestion.

*Tickets can be purchased when registering to the World Water Week. Cost: 450 SEK. Transportation and refreshments included.*

Field visit

13:00-18:00

## Prizes and awards

**Stockholm Water Prize** | The world's most prestigious water award, Stockholm Water Prize, honours women, men and organizations whose work contributes to the conservation and protection of water resources, and to the well-being of the planet and its inhabitants. All who have made extraordinary water-related achievements are eligible.

Professor Joan Rose of the USA is named the 2016 Stockholm Water Prize Laureate for her tireless contributions to global public health: in assessing risks to human health in water and creating guidelines and tools for decision-makers and communities to improve global health.

**Stockholm Junior Water Prize** | The prize gathers imaginative young minds from all over the world. The competition aims to encourage young people's interest in water and the environment. It is open to students aged between 15 and 20 who have conducted water-related projects.

The winner is announced, and presented by the prize patron, H.R.H. Crown Princess Victoria of Sweden during World Water Week in Stockholm. This year, we celebrate the 20th jubilee of the competition.

*"I have always been motivated by the principles of public health, how to prevent disease. A key barrier, our water infrastructure, is crumbling or non-existing in many parts of the world. The global population unserved by sewage treatment is counted in the billions."*

- Professor Joan Rose, 2016 Stockholm Water Prize Laureate

## Young Professionals' Day

Photo: iStock

Young Professionals' Activities at World Water Week is all about inspiring, motivating and empowering young people. The Young Professionals Day is a full day of themed activities, including three dedicated seminars which will centre on inspiring and encouraging Young Professionals to build their careers in water. The day will start with taking stock of what happened in 2015 and we will discuss how to ensure that we meet to goals of the 2030 Agenda.

The day will continue to focus on how to get and stay involved in this process as a Young Professional, and be a part of the solution moving forward. During the Week we will also provide networking possibilities at the Young Professionals Mingle and the Young Professionals-booth, we will showcase innovations at the Ideas Marketplace and you will be able to visit the CV clinic. For more information on the sessions and how to register, visit our [online programme](#) and search for Young Professionals.

*The Young Professionals' Activities are organised in collaboration with Arup.*
